

2022 Virtual Research Conference

Children's Remarkable Research

April 29, 2022

April 29th | 11:30 am - 12:30 pm

April 29th | 1:00 – 2:00 pm

First session / Room 1: Pediatric Developmental Health		Second Session / Room 1: Advances in Societal Medicine	
Amy Linabery	Comparing a synchronous multidisciplinary pediatric concussion clinic model to the existing asynchronous model: A pilot study	Emmy Reilly	SES Predicts Infant Joint Attention Performance
Emmy Reilly	Assessing 2 and 3-year olds' executive function during pediatric well-child visits: feasibility and implications.	Manu Madhock	Racial/Ethnic Disparities in Intubation Success Rates During Pediatric Out-of-Hospital Cardiac Arrest
Amy Linabery	The effects of the COVID-19 pandemic on children with behavioral disorders and their families	Mike Troy	The Effects of Racism and Discrimination on Children's Health & Development
First Session / Room 2: Mother-Baby Dyad - Surgical Innovations		Second Session / Room 2: Mother-Baby Dyad – Supportive Care	
Joseph Petronio	Fetoscopic Closure of Myelomeningocele: Surgical Technique and Case Series	Victoria Nguyen	Associations between the Childhood Opportunity Index and Racial Disparities in Obstetric Outcomes
Jillian Wothe	Onset and Outcomes of Idiopathic Oligohydramnios	Cristina Miller	CHAMP study: Reduction to Clinical Practice
Stephanie Eyerly-Webb	Placental Location in Maternal-Fetal Surgery for Myelomeningocele	Nancy Slater	Weaning from a feeding tube in children with congenital heart disease: A review of the literature
First Session / Room 3: Access, QoL and Telehealth		Second Session / Room 3: Emergency Pediatric Services	
Lynn Tanner	CREATE™ Childhood Cancer Rehabilitation Program Development: Increase Access to Improve Outcomes	Shea Lammers	Features of Bloodstream Infection Among Immunocompromised Oncology Patients Presenting to the Emergency Department with Fever
Anna Dybvik	Health-Related Quality of Life in Individuals with Pleuropulmonary Blastoma	Joanna Ekstrom	Fellow-led Debriefs after Resuscitations in the Pediatric Emergency Department
Kathy Grinde	The Canadian Occupational Performance Measure: A Feasible Multidisciplinary Outcome Measure for Pediatric Telerehabilitation	Marshal Khant	Interrater reliability of point-of-care ultrasound for identification of intussusception
First Session / Room 4: Cancer and Blood Diagnostics		Second Session / Room 4: Cancer Novel Therapeutics	
Kris Ann Schultz	Longitudinal detection of ctDNA in children with Types II and III Pleuropulmonary Blastoma: A Report from the International PPB/DICER1 Registry	Stuart Winter	A Novel Antibody-Drug Conjugate Directed Toward the Surrogate Light Chain of Malignantly-transformed B-cell Precursors Reverses Leukemic Progression
Sam Roiko	Pilot study to characterize opioid-related pharmacogenomic variants in children with Sickle Cell Disease at Minnesota	Kris Ann Schultz	Outcomes for Children with Types II and III Pleuropulmonary Blastoma (PPB): A Report from the International PPB/DICER1 Registry
Alexander Nelson	Pleuropulmonary Blastoma (PPB) and Diagnostic Pitfalls: A Report from the International PPB/DICER1 Registry	Courtney Paetznick	Use of HLA typing as a predictor for pegaspargase hypersensitivity reactions
